## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-15, drawn to a method for preparing a composition comprising recited steps (a) - (c).

Group II, claim 16, drawn to a liquid phase as obtained by the method as claimed in claim 15.

Group III, claim 17, drawn to a solid phase as obtained by the method as claimed in claim 15.

Group IV, claims 18-22, drawn to a composition obtained by the method as claimed in any one of the preceding claims.

Group V, claim 29, drawn to a method of cosmetic treatment for tissue regeneration of the skin and/or superficial body growths, characterized in that the composition as claimed in any one of claims 18 to 20 is applied to the skin and/or superficial body growths.

Art Unit: 1654

Group VI, claim 30, drawn to a method of cosmetic treatment of modifications related to aging of the skin and/or superficial body growths, characterized in that the composition as claimed in any one of claims 18 to 20 is applied to the skin and/or superficial body growths.

Please note that Claims 23-28 are drawn to non-statutory subject matter; and, therefore the claims could not be grouped.

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Applicant is reminded that under PCT Rule, Applicant is allowed one method of making a product, one method of using a product, and one product for prosecution on the merits. As drafted, the pending claims fail to comply with PCT Rules. Applicant is required to elect a single invention for prosecution on the merits, i.e., one method of making a product, one method of using a product, and one product.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any

Art Unit: 1654

amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
